

charcuterie boards

(SHär' kōödərē)

Live edge, hand-made,
charcuterie boards from
Triple 'D' Woodshop

I want one!

Care Instructions:

- These are one-of-a-kind charcuterie boards, hand-crafted by Triple 'D' Woodshop.
- They are sealed with a food-grade conversion varnish and do not need to be oiled.
- Do not use as a cutting board or a trivet. Knives and heat will damage the board.
- Wash with warm soapy water and towel dry. Never submerge or put in a dishwasher.
- Furniture polish is okay as is Lysol type sprays and disinfectants.
- There are natural imperfections in the wood, these are not flaws, just part of the character of the wood and of hand-crafting.
- Thank you for supporting a small, family-run business.
